PROFESSIONAL SUMMARY

- Data Analyst and Economist with 6+ years of experience turning large datasets (8M+ records) into actionable insights through statistical modelling, dashboards, and data storytelling.
- Skilled in developing and optimising data pipelines and ensuring data quality.
- Strong communicator and collaborator with experience presenting analyses to audiences of up to 200 people and working across diverse teams.
- Passionate about the intersection of data and creativity, with a keen interest in applying analytics to the music and entertainment industry.

EXPERIENCE

Quantitative Economist

MLU Halle - Chair of Empirical Microeconomics

📅 May 2019 – Present

📍 Halle (Saale)

- Designed and managed data pipelines (R, Python) for ingesting, cleaning, analysing, and visualising large-scale datasets (8M+ observations).
- Performed deep-dive analyses on policy and behavioural datasets, applying regression, synthetic control, and forecasting techniques.
- Communicated insights to both technical and non-technical audiences, translating complex findings into relevant outcomes.
- Coordinated cross-functional teams and organised large-scale events, leading a team of 14 staff for a 400+ participant conference.

Graduate Research Assistant

MLU Halle - Chair of Econometrics

📅 Oct. 2017 – Aug. 2018

📍 Halle (Saale)

- Performed data modelling and statistical analyses on multi-level and panel datasets.
- Produced data visualisations to support reports and presentations.

Student Research Assistant

MLU Halle - Chair of Microeconomics

📅 Jun. 2015 – Apr. 2019

📍 Halle (Saale)

- Prepared presentations and slides (e.g., PowerPoint updates for courses)
- Supported teaching (Health Economics, Microeconomics II, Public Economics)

MY STRENGTHS

Critical thinking

Motivator & Leader

English

PROJECTS (SELECTION)

Dashboard for Ranking German Districts

[on GitHub](#) | [Website](#)

- Developed an **interactive Shiny dashboard** that translates complex regional data into an accessible, user-driven ranking tool.
- Integrated **40+ district-level indicators** covering economy, infrastructure, housing, environment, demographics, public services, and regional quality-of-life factors.
- Built transparent scoring logic that allows users to adjust indicator weights and define whether each variable should affect rankings positively, negatively, or neutrally.
- Added a **second-stage drill-down ranking** that ranks municipalities within a selected district using the same index logic.
- Automated **top-20 rankings, visualizations, and reproducible outputs** into a responsive reporting dashboard designed for self-service use.

Team Management & Randomization Application

[on GitHub](#) | [Website](#)

- Built a password-protected **R Shiny application** for managing participant lists and assigning selected individuals to a configurable number of balanced teams.
- Designed the app for practical operational use cases, including experiments, university seminars, workshops, sports groups, and stakeholder-oriented sessions.
- Added validation logic for captains, duplicate assignments, inconsistent inputs, and accidental removal of active participants to strengthen data integrity.
- Enabled manual post-randomization adjustments, team export, and PDF reporting to support recurring operational use beyond one-time analysis.

Personal Website & Project Portfolio

[on GitHub](#) / [gstahn.de](#)

- Built and maintained a personal **static website** to present academic background, data projects, publications, reviews, and professional contact information in a structured portfolio format.
- Implemented the site using **Hugo, Markdown**, and a customized Beautiful Hugo theme, hosted through **GitHub Pages** with a custom domain.
- Organized multilingual content in German and English, demonstrating clear technical documentation, reproducible site structure, and version-controlled content management.
- Self-written **reviews of financial literature** using comprehensible language in German and English.

SOCIAL ENGAGEMENT

SC 261 Halle (Saale) e.V. (indoor volleyball club)

- Created an R Shiny application to streamline player management and ensure balanced team assignments, enhancing training session quality.
- Participation in weekly trainings and games.

Kixx'n'Trixx Table Football Halle e.V. (table soccer club)

- Chairperson (Sep 2019 – Jan 2025)
 - **Revitalized the club post-COVID** by securing a new venue and **increasing membership by 44%**.
- Planned and organized multiple local and supra-regional tournaments.

Akademischer Börsenkreis, Universität Halle e.V. (Student Investment Club)

- Chairperson (Jun 2015 – Jun 2016)
 - Led an organization focused on financial markets, investing, and capital market education.
- Organized seminars and guest lectures covering investment strategies, stock market fundamentals, and economic developments.
- Coordinated networking events involving students, professionals, and external speakers from the finance sector.
- Managed club activities, event planning, stakeholder communication, and promotional initiatives.
- Active participant in regular discussions of equity markets, investment opportunities, macroeconomic developments, and market trends.
